The net profit attributable to shareholders was \$40.816 million, or 0.53 cents per share, as compared to net loss of \$12.919 million, or 0.57 cent per share, for the same period of 2012. On the balance sheet, at 31 December 2013 the total assets of the Group were \$402.729 million, as compared \$295.182 million at 31 December 2012, and the net assets of the Group were \$355.326 million at 31 December 2013, as compared \$258.415 million at 31 December 2012.

BUSINESS REVIEW

The Group is primarily engaged in the business of developing and producing crude oil in Indonesia, minerals in China, and provision of electronic manufacturing services in the United Kingdom.

Through its wholly owned subsidiary, Kalrez Petroleum (Seram) Limited, the Company operates oilfields in Indonesia under the Bula Petroleum Production Sharing Contract ("Bula PSC"), which the Group entered into with BPMIGAS, Department of Petroleum of Indonesia, on 22 May 2000. The Bula PSC will expire in 2019.

Through its wholly owned subsidiaries, South Sea Graphite (Luobei) Co., Ltd., Liaoning Sinorth Resources Co., Ltd., and majority owned subsidiary, Luo Bei Xin Long Yuen Graphite Productions Co., Ltd, the Company is engaged in the business of production and sale of graphite products worldwide, mostly in China.

Through its majority owned subsidiary, Axiom Manufacturing Services Ltd. in the United Kingdom ("Axiom"), the Company provides electronics manufacturing services to companies in the following industrial market sectors:

- Medical
- Defense
- Transport
- Aerospace
- Security
- Marine
- Oil and Gas, and
- Other industrial market

Generally, Axiom builds products that carry the brand names of its customers and substantially all of Axiom's manufacturing services are provided on a turnkey basis. Most of Axiom's customers are located within the United Kingdom and North America.

DIRECTORS' BUSINESS REVIEW

(In this review, all the "\$" refers to the legal currency of the United States of America, unless otherwise specified)

Long-term supply of graphite ore at a reasonable price is critical to the development of the Company's graphite business. Up to now the Company, through its subsidiary, has built a significant reserve of graphite ore as its financial resources may possibly permit. The Company wishes that it would be able to not only build an adequate graphite ore reserve for its own subsidiaries, but also sell graphite ore to other companies for a profit. To that end, in August 2013, the Company's subsidiary sold a major portion of its graphite ore reserve for no less than 20% profit to a company that was willing to enter into a long-term purchasing contract (10 years), and pay 10 million HKD as performance bond. Upon execution of said contract, the Company has not only satisfied its long-term demand for graphite ore, but also locked in the profit through graphite ore sales to other companies over the next 10 years.

In December 2013, the both parties entered into another agreement. Pursuant to the agreement, the Company sold a total of 33.45 million metric tons of its inventory in graphite ore at a fixed price of US\$7.90 per metric ton. The buyer will pay for the graphite ore in installments over a period of ten years. Starting from 2014, the annual payment will not be less than US\$26,425,500 by 31 December until the entire purchase price have been paid in full. In the event buyer breaches the Agreement, the Company will have the right to repossess the unsold graphite ore by the purchaser and recover from buyer the damages resulting therefrom. Before the entire purchase price is paid in full, the buyer will not be entitled to the refund of its deposit in the amount of ten million Hong Kong dollars.

In 2013, the Company's subsidiary in the UK, Axiom Manufacturing Services Limited, received certain order of slot machines to be used for gaming purposes. The quality of the slot machines received very positive feedback from the customers and users. The Company believes that developing an improved machines with multiple functions, including medical diagnosis, entertainment, television viewing and internet surfing would generate a considerable amount of revenue/profit for the Company. Therefore, the Company plans to have Cityhill Limited, a wholly owned subsidiary of the Company, start working on research and development for the design of the new machine ("New Machine"). Upon successful completion of the research and development, the New Machine can be manufactured by Axiom. At the same time, the Company also plans to have Union Arts Limited, another wholly owned subsidiary of the Company, produce infomercial film(s) as a promotional tool for the marketing of the New Machine.

RESULTS OF OPERATIONS

For the year ended 31 December 2013, the Group's turnover was \$370.507 million, an increase of \$258.564 million, or 230.98%, as compared to \$111.943 million for the same period of the prior year. Specifically, for the year ended 31 December 2013, the turnover of the Group's crude oil operation was \$19.437 million as compared to \$12.384 million for the same period of 2012, representing an increase of 56.95%. The increase in oil revenue was primarily due to more crude oil were delivered during the year. For the year of 2013, the Group's graphite operation generated revenues of \$304.725 million, or an increase of 641.55%, as compared to \$41.093 million for the same period of last year. The increase in sales of graphite ore was primarily due to the sales under the agreement as mentioned above. For the year ended 31 December 2013, the turnover of the Group's electronics manufacturing service operation was \$46.345 million, representing a decrease of \$1.150 million, or 2.42%, as compared to \$47.495 million for the same period of the prior year. The slightly decrease in the Group's turnover in its electronics manufacturing service operation was largely due to a large contract in the second half of 2012. Overall electronic manufacturing volumes were on a par with that of the last year.

DIRECTORS' BUSINESS REVIEW

(In this review, all the "\$" refers to the legal currency of the United States of America, unless otherwise specified)

LIQUIDITY AND CAPITAL RESOURCES

The Group's operations are primarily funded by cash flows from its operations and from issuance of the Company's ordinary shares and convertible debentures.

At 31 December 2013, the Group's cash and cash equivalents were \$21.766 million as compared to \$26.161 million as at 31 December 2012. For the year of 2013, the Group's operating activities used net cash of \$56.119 million. By comparison, net cash used in operating activities was \$49.195 million for the same period of 2012.

For the year ended 31 December 2013, the Group's investing activities used net cash of \$3.202 million, primarily due to purchase of property and equipment and payment of dividend to non-controlling interest. By comparison, net cash used by the Group's investing activities in 2012 was \$6.799 million. For the year ended 31 December 2013, the Group's financing activities generated net cash of \$54.382 million, primarily from issuance of convertible debentures of the Company. By comparison, net cash provided in financing activities was \$48.479 million for the same period of 2012.

At 31 December 2013, the Group had no contingent liabilities. The Group believes that its cash balance and the cash generated from operations are adequate to meet its operating expenses and capital expenditure for the next twelve months. However, the Group's continuing operating and investing activities may require it to obtain additional sources of financing. In that case, the Group may seek financing from institutional investors, banks, or other sources of financing. There can be no assurance that any necessary additional financing will be available to the Group at that time.

OFF BALANCE SHEET ARRANGEMENTS

At 31 December 2013, the Group had no off balance sheet arrangements.

EMPLOYEES AND REMUNERATION POLICIES

At 31 December 2013, the Group had approximately 785 employees in Indonesia, the United Kingdom, China and Hong Kong. The Group believes that its relationship with its employees is satisfactory.

From time to time, the Group may also use services of independent consultants and contractors to render various professional services. The remuneration of each employee of the Group is determined on the basis of his or her performance and responsibility.

MATERIAL UNCERTAINTIES

There are no material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

DIRECTORS' BUSINESS REVIEW

(In this review, all the "\$" refers to the legal currency of the United States of America, unless otherwise specified)

FOREIGN EXCHANGE EXPOSURE

The Group's principal operating subsidiaries earn revenues and incur costs in US dollars, Chinese Renminbi and British pounds, respectively. For the year ended 31 December 2013, the Group has not engaged in any hedging activities. The Group will continue to monitor the risk of foreign exchange fluctuation on the Group's results of operations, financial conditions and cash flow.

LEGAL PROCEEDINGS

The Group is not aware of any pending or threatened legal proceeding that, if determined in a manner adverse to us, could have a material adverse effect on the business and operations of the Group.

REVIEW BY THE AUDIT COMMITTEE

The Audit Committee has reviewed with management the accounting principles and practices adopted by the Company and discussed auditing, internal controls and financial reporting matters, including a review of the audited financial statements for the year ended 31 December 2013.

PUBLICATION OF RESULTS

This report will be published in due course on website of The Stock Exchange of Hong Kong Limited (<http://www.hkex.com.hk>) and website of the Company (<http://www.southseapetro.com.hk>), and be dispatched to shareholders who selected to receive the printed version of the corporate communication of the Company on or before 22 April 2014.

On Behalf of the Board

Guan Xinmin

Chairman

Hong Kong, 31 March 2014

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICE

The Company is committed to achieving high standards of corporate governance to safeguard the interests of shareholders, customers, staff and other stakeholders.

For the year ended 31 December 2013, the Company has complied with all the code provisions as set forth in the Code on Corporate Governance Practices contained in Appendix 14 to the Rules Governing the Listing of Securities ("Listing Rules") on The Stock Exchange of Hong Kong Limited, except for two deviations as below:

Code Provision A.4.1: Non-executive directors should be appointed for a specific term

Under the code provision A.4.1 of the Code, non-executive Directors (including independent non-executive directors) shall be appointed for a specific term and subject to re-election. None of the Company's existing independent non-executive Directors was appointed for a specific term. This constitutes a deviation from code provision A.4.1 of the Code. However, the Company's Articles of Association stipulate that all independent non-executive directors shall retire and be re-elected at least once every three years, which is an adequate measure to ensure that the Company's corporate governance complies with the same level to that required under the Code on Governance Practices and Corporate Governance Code.

On 22 August 2013, Mr. Han Zhi Jun was appointed as independent non-executive director. Mr. Han shall retire and be re-elected at the next general meeting.

Code Provision A.6.7: Independent non-executive directors and non-executive directors should attend general meeting

Mr. Lu Ren Jie, Mr. Chai Woon Chew and Mr. Ng Lai Po, all being non-executive directors, were not able to attend the annual general meeting of the Company held on 16 May 2013 due to other business engagements.

THE BOARD OF DIRECTORS

The Board is responsible for overseeing the Company's strategic planning and development, and for determining the objectives, strategic and policies of the Company while delegating day-to-day operations of the Company to the management. Besides, each Board member is expected to make a full and active contribution to the Board's affairs and ensure that the Board acts in the best interests of the Company and its shareholders as a whole.

CORPORATE GOVERNANCE REPORT

The Board currently comprises seven directors (the “Directors”) in total, with three Executive Directors and four Independent Non-Executive Directors. The composition of the Board during the year is set out as follows:

Executive Directors:

Guan Xinmin, *Chairman*
Feng Zhong Yun, *Managing Director*
Zhang Xue

Independent Non-Executive Directors:

Han Zhi Jun, *Vice-Chairman (appointed on 22 August 2013)*
Ng Lai Po
Lu Ren Jie
Chai Woon Chew

The Board has maintained a balance of skills and experience appropriate for the requirements of the businesses of the Company. Its composition represents a mixture of management, accounting and finance, marketing, manufacturing and procurement with comprehensive experience in and exposure to diversified businesses. It is the opinion of the Directors that the Board has the necessary skills and experience appropriate for discharging their duties as directors in the best interests of the Company.

Throughout the year and up to the date of this report, the Company has complied with the requirements under Rules 3.10(1) and (2) of the Listing Rules. The former Rule requires that every board of directors of a listed issuer must include at least three Independent Non-Executive Directors and the latter Rule requires that at least one of the Independent Non-Executive Directors must have appropriate professional qualifications or accounting or related financial management expertise. All Independent Non-Executive Directors also meet the guidelines for assessment of their independence as set out in Rule 3.13 of the Listing Rules. Further, up to the date of this Report, the Board has not been aware of the occurrence of any events which would cause it to believe that their independence has been impaired.

The Company has received from each Independent Non-Executive Director an annual confirmation or confirmation of independence pursuant to Rule 3.13 of the Listing Rules and the Company still considers such Directors to be independent. The Independent Non-Executive Directors are explicitly identified in all corporate communications.

Every Director is entitled to have access to Board papers and related materials and has access to the advice and services of the Company Secretary. The Board and each Director also have separate and independent access to the Company’s senior management.

To the best knowledge of the Company, there is no material relationship, whether financial, operational, family, etc., among members of the Board.

CORPORATE GOVERNANCE REPORT

DIRECTORS' INDUCTION AND CONTINUOUS PROFESSIONAL DEVELOPMENT

On appointment to the Board, each newly appointed Director receives a comprehensive induction brief covering business operations, policy and procedures of the Company as well as the general statutory and regulatory obligations of being a Director to ensure that he/she is sufficiently aware of his/her responsibilities under the Listing Rules and other relevant regulatory requirements.

The Directors are regularly briefed on the amendments to or updates on the relevant laws, rules and regulations. In addition, the Company also encourages the Directors to enroll in a wide range of professional development courses and seminars relating to the Listing Rules, Companies Ordinance and corporate governance practices so that they can continuously update and further improve their relevant knowledge and skills.

Pursuant to Code A.6.5 of the "Corporate Governance Code", listed company directors should participate in continuous professional development to develop and refresh their knowledge and skills. This is to ensure that their contribution to the board remains informed and relevant. According to the records maintained by the Company, the current Directors received the following training with an emphasis on the roles, functions and duties of a director of a listed company in compliance with the new requirement of the Revised Code on continuous professional development during the year ended 31 December 2013:

CORPORATE GOVERNANCE REPORT

CHAIRMAN AND CHIEF EXECUTIVE

The Chairman of the Board of the Directors of the Company is Mr. Guan Xinmin, and the functions of Chief Executive Officer are performed by our Managing Director, Mr. Feng Zhong Yun.

Under Code Provision and Revised Code Provision A.2.1, the roles of the Chairman and the Chief Executive Officer are segregated and assumed by two different Individuals who have no relationship with each other to strike a balance of power and authority so that the job responsibilities are not concentrated on any one individual. The Chairman of the Board is responsible for the leadership and effective running of the Board, while the Chief Executive Officer is delegated with the authorities to manage the business of the Group in all aspects effectively.

INDEPENDENT NON-EXECUTIVE DIRECTORS

The independent non-executive Directors provide a wide range of expertise and experience as well as checks and balances to safeguard the interests of the Company and its shareholders. Their participation in the board and committee meetings brings independent judgement on issues relating to the Company's strategy, performance, conflicts of interest and management process to ensure that the interests of all shareholders of the Company have been fully considered.

The independent non-executive Directors of the Company were not appointed for a specific term, as they were subject to retirement by rotation and re-election at least once every three years at the annual general meeting of the Company in accordance with the Company's Articles of Association.

More than one-third of the Board members of the Company consist of independent non-executive Directors and at least one of whom has appropriate professional qualifications or accounting or related financial management expertise.

The Company has received, from each of the independent non-executive Directors, annual confirmation of his/her independence pursuant to Rule 3.13 of the Listing Rules. The Company considers that all the independent non-executive Directors are independent.

CORPORATE GOVERNANCE FUNCTIONS

The Board as a whole is responsible for performing the corporate governance duties including:

- (a) To develop and review the Company's policies and practices on corporate governance;
- (b) To review and monitor the training and continuous professional development of directors and senior management;
- (c) To review and monitor the Company's policies and practices in compliance with legal and regulatory requirements;
- (d) To develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and directors; and
- (e) To review the Company's compliance with the code and disclosure in the Corporate Governance Report.

COMPLIANCE OF THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Companies (the "Model Code") as set out in Appendix 10 of the Listing Rules as its own code of conduct regarding securities transactions by the Directors of the Company. All Directors have confirmed that, following specific enquiry by the Company, they fully complied with the Model Code throughout the year of 2013.

At 31 December 2013, none of the Directors and executive officers of the Company and their respective associates had any interest or short position in the shares, underlying shares and debentures of the Company or any of its associated corporations that were required, pursuant to Section 352 of the SFO, to be entered in the register referred to therein or which were required, pursuant to the Model Code contained in the Listing Rules, to be notified to the Company and the Stock Exchange.

CORPORATE GOVERNANCE REPORT

EXECUTIVE DIRECTORS' REMUNERATION

The remuneration paid to the executive Directors of the Company in 2013 was as below:

Name of Executive Directors	Compensation Per Annum (US\$'000)
Mr. Guan Xinmin	64
Mr. Feng Zhong Yun	15
Ms. Zhang Xue	32

No executive Director has a service contract with the Company or any of its subsidiaries with a notice period in excess of one year or with provisions for predetermined compensation on termination that exceeds one year's salary and benefits in kind.

REMUNERATION OF NON-EXECUTIVE DIRECTORS

The role of non-executive Directors has become more complex and demanding due to regulatory changes and the increasing part they play in the governance of listed companies. The Company believes that the level of remuneration for any particular non-executive Directors should reflect the likely workload, the scale and complexity of the business and the responsibility involved.

Non-executive Directors of the Company are paid fees in line with market practice. Executive Directors serving on the board and board committees are not entitled to any directors' fees. The non-executive Directors of the Company received no other compensation from the Company except for the fees disclosed in this Annual Report.

INSURANCE POLICY FOR DIRECTORS AND OFFICERS

Other services	55	48

The Board's policy is to pre-approve all audit services and all permitted non-audit services as set forth by the Listing Rules of the Hong Kong Stock Exchange to be provided by the Company's independent auditor.

The Audit Committee of the Board intends to re-appoint JP Union & Co as its statutory auditor for the fiscal year 2014. The appointment is subject to approval and authorization by the Board of the Directors and by the shareholders at the 2014 annual general meeting.

FINANCIAL REPORTING

The Board acknowledges its responsibilities of the preparation of the financial statements of the Group and ensures that the financial statements are in accordance with statutory requirements and applicable accounting standards. The Board also ensures the timely publication of the financial statements of the Group.

The statement of external auditor of the Company, JP Union & Co., about their reporting responsibilities on the financial statements of the Group is set out in the Independent Auditor's Report.

The Company publishes its financial results on a semi-annual basis. The Board consider that in preparing the financial statements, the Company has applied the appropriate accounting policies that are consistently adopted and made judgments/estimates that are reasonable and prudent in accordance with the Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants.

The Board, having made appropriate enquiries, is of the view that the Company has adequate resources to continue in operational existence for the foreseeable future and that, for this reason, it is appropriate for the Company to adopt the going concern basis in the preparation of the financial statements.

During the year of 2013, the Company adopted some new and revised Hong Kong Financial Reporting Standards, including Hong Kong Accounting Standards and applicable Interpretations which came into effect on 1 January 2013. They are set out in the Application of New and Revised HKFRSs of the notes to the Accounts on Note 1 to the consolidated financial statements.

CORPORATE GOVERNANCE REPORT

INTERNAL CONTROLS AND RISK MANAGEMENT

The Board is responsible for internal control of the Company and its subsidiaries and for reviewing its effectiveness.

The Company's internal control system comprises a well-established organizational structure and comprehensive policies and standards. Areas of responsibilities for each business and functional unit are clearly defined to ensure effective checks and balances.

Procedures have been designed for safeguarding assets against unauthorized use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information used within the business or for publication. The procedures provide reasonable but not absolute assurance against material errors, losses or fraud. Procedures have also been designed to ensure compliance with applicable laws, rules and regulations.

A review of the effectiveness of the Company's internal control system covering all material controls, including financial, operational, compliance, and risk management controls, is conducted annually. The review at the end of 2013 was conducted with reference of the COSO (The Committee of Sponsoring Organizations of the Treadway Commission) internal control framework, which assesses the Company's internal control systems against the five elements of control environment, risk assessment, control activities, information and communication, and monitoring. Based upon that review, the Board considers the Company's internal controls and risk management effective and adequate for their purposes.

COMPANY SECRETARY

All Directors have access to the advice and services of our Company Secretary, Ms. Lam Lee Yu, Vivian. The Company Secretary reports to the Chairman and Managing Director on board governance matters, and is responsible for ensuring that board procedures are followed and for facilitating communications among Directors as well as with Shareholders and management. The Company Secretary also responsible for the Company's compliance with the continuing obligations of the Listing Rules, Companies Ordinance, Securities and Futures Ordinance and other applicable laws, rules and regulations.

During the year, our Company Secretary was fully compliance with Rule 3.29 of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

INDEPENDENT AUDITOR'S REPORT

中順聯合會計師事務所

JP UNION & CO., Certified Public Accountants

TO THE SHAREHOLDERS OF SOUTH SEA PETROLEUM HOLDINGS LIMITED

(incorporated in Hong Kong with limited liability)

We have audited the consolidated financial statements of South Sea Petroleum Holdings Limited (the "Company") and its subsidiaries (together the "Group") set out on pages 31 to 83, which comprise the consolidated and Company statement of financial position as at 31 December 2013, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants (HKICPA) and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, in accordance with section 141 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the HKICPA. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2013 and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the Hong Kong Companies Ordinance.

1. CORPORATE INFORMATION

The Company was incorporated in Hong Kong with limited liability. Its principal place of business is situated at Unit 1002, 10/F, Euro Trade Centre, 13-14 Connaught Road Central and 21-23 Des Voeux Road Centre, Hong Kong. The Company's Securities are listed on the Stock Exchange of Hong Kong Limited for trading (Stock Code: 76).

The Group has two principal lines of business. The first line of business is to develop, trade, explore and produce crude oil and mining, such as graphite, in Asian countries. The second line of business is to provide electronic manufacturing services in the United Kingdom.

Through its wholly-owned subsidiary, Kalrez Petroleum (Seram) Limited, the Company operates oilfields in Indonesia under the Bula Petroleum Production Sharing Contract ("Bula PSC"), which the Group entered into with BPMIGAS, Department of Petroleum of Indonesia, on 22 May 2000. The Bula PSC will expire in 2019.

Through its wholly owned subsidiaries, South Sea Graphite (Luobei) Co., Ltd, Liaoning Sinorth Resources Co., Limited, and majority owned Luo Bei Xin Long Yuan Graphite Production Co. Limited, the Company is engaged in the business of exploration, production and sale of graphite products in Luobei, Heilongjiang Province of China, and Liaoning Province respectively.

Through its wholly-owned subsidiary, Global Select Limited, the Company is engaged in trading of graphite ore.

Through its majority owned subsidiary, Axiom Manufacturing Services Ltd. in the United Kingdom, the Company provides electronics manufacturing services to companies in the following industrial market sectors:

- Medical
- Defense
- Transport
- Aerospace
- Security
- Marine
- Oil and Gas, and
- Other industrial market

Generally, Axiom builds products that carry the brand names of its customers and substantially all of Axiom's manufacturing services are provided on a turnkey basis. Most of Axiom's customers are located within the United Kingdom and North America.

2. BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which also include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). In addition, these financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The measurement basis in the preparation of the financial statements is historical cost, except for the measurement of land and buildings, investment properties and certain financial instrument, which are measured at revalued amount or fair values, as explained in the accounting policies set out below.

The preparation of the consolidated financial statements in conformity with HKFRSs requires the use of certain key assumptions and estimates. It also requires the directors to exercise its judgements in the process of applying the accounting policies. The areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5 to the financial statements.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from the activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of profit or loss from the effective date of acquisition and up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group. All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Non-controlling interests in subsidiaries are presented separately from the equity of the Company’s shareholders.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

3. APPLICATION OF NEW AND REVISED HKFRSs

In the current year, the Group has applied for the first time the following new and revised HKFRSs issued by the HKICPA, which are relevant to and effective for the Group's financial statements for the annual financial period beginning on 1 January 2013.

Amendments to HKFRSs	Annual Improvements to HKFRSs 2009-2011 Cycle
Amendments to HKFRS 7	Disclosures – Offsetting Financial Assets and Financial Liabilities
Amendments to HKFRS 10, HKFRS 11 and HKFRS 12	Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance
HKFRS 10	Consolidated Financial Statements
HKFRS 11	Joint Arrangements
HKFRS 12	Disclosure of Interests in Other Entities
HKFRS 13	Fair Value Measurement
HKAS 19 (Revised in 2011)	Employee Benefits
HKAS 27 (Revised in 2011)	Separate Financial Statements
HKAS 28 (Revised in 2011)	Investments in Associates and Joint Ventures
Amendments to HKAS 1	Presentation of Items of Other Comprehensive Income
HK (IFRIC) – Int 20	Stripping Costs in the Production Phase of a Surface Mine

The effect of the adoption of the above amendments to standards beginning 1 January 2013 is not material to the Group's results of operations or financial position except on the disclosures set out below:

Amendments to HKAS 1 "Presentation of Items of Other Comprehensive Income"

The amendments to HKAS 1 "Presentation of Items of Other Comprehensive Income" introduce new terminology for the statement of comprehensive income and income statement. Under the amendments to HKAS 1, a 'statement of comprehensive income' is renamed as a 'statement of profit or loss and other comprehensive income' and an 'income statement' is renamed as a 'statement of profit or loss'. The amendments to HKAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to HKAS 1 require items of other comprehensive income to be grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis – the amendments do not change the option to present items of other comprehensive income either before tax or net of tax. The amendments have been applied retrospectively, and hence the presentation of items of other comprehensive income has been modified to reflect the changes. Other than the above mentioned presentation changes, the application of the amendments to HKAS 1 does not result in any impact on profit or loss, other comprehensive income and total comprehensive income.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

3. APPLICATION OF NEW AND REVISED HKFRSs (Continued)

The Group has not early applied the following new and revised HKFRSs that have been issued but are not yet effective in the financial year of which the consolidated financial statements were prepared:

4. SIGNIFICANT ACCOUNTING POLICIES

Business combinations

Business combinations that took place on or after 1st January, 2013

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 Income Taxes and HKAS 19 Employee Benefits respectively;
- liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment transactions with share-based payment transactions of the Group are measured in accordance with HKFRS 2 Share-based Payment at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 Non-current Assets Held for sale and Discontinued Operations are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or another measurement basis required by another Standard.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations (Continued)

Business combinations that took place prior to 1st January, 2013

Acquisition of businesses was accounted for using the purchase method. The cost of the acquisition was measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree, plus any costs directly attributable to the business combination. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition were generally recognised at their fair values at the acquisition date.

Goodwill arising on acquisition was recognised as an asset and initially measured at cost, being the excess of the cost of the acquisition over the Group's interest in the recognised amounts of the identifiable assets, liabilities and contingent liabilities recognised. If, after reassessment, the Group's interest in the recognised amounts of the acquiree's identifiable assets, liabilities and contingent liabilities exceeded the cost of the acquisition, the excess was recognised immediately in profit or loss.

The non-controlling interest in the acquiree was initially measured at the non-controlling shareholder's proportionate share of the recognised amounts of the assets, liabilities and contingent liabilities of the acquiree.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost less any accumulated impairment losses, if any, and is presented separately in the consolidated statement of financial position.

For the purposes of impairment testing, goodwill is allocated to each of the cash-generating units, or groups of cash-generating units, that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit, and then to the other assets of the unit pro rata on the basis of the carrying amount of each asset in the unit. Any impairment loss recognised for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Oil properties

The successful efforts method of accounting is followed for oil exploration and development costs. The initial acquisition costs of oil properties and the costs of drilling and equipping successful exploratory wells are capitalised. Impairment of initial acquisition costs is recognised based on exploratory experience and management judgment. Exploratory drilling costs are capitalised pending determination of proven reserves. The costs of exploration wells classified as unsuccessful and all other exploration costs, as incurred, are included in the profit or loss. All development costs are capitalised. Maintenance and repairs are included in the profit or loss while renewals and betterments, which extend the economic lives of assets, are capitalised.

Depreciation, depletion and amortisation of oil properties

The capitalised costs of proven oil properties, are depleted/depreciated using the unit of production method based on estimated proven oil reserves. Plant and equipment are depreciated at rates from 10% to 50% per annum.

The capitalised costs of significant unproven oil properties are assessed regularly to determine whether an impairment in value has occurred, in which case such amount is included in the profit or loss.

Land and buildings

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated balance sheet at their revalued amount, being the fair value at the date of revaluation less any subsequent accumulated depreciation and impairment losses. Revaluations are performed by qualified valuers with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair values at the end of reporting period.

Any revaluation increase arising on revaluation of land and buildings is credited to the revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised as an expense, in which case the increase is credited to the consolidated statement of profit or loss to the extent of the decrease previously charged. A decrease in net carrying amount arising on revaluation of an asset is dealt with as an expense to the extent that it exceeds the balance, if any, on the revaluation reserve relating to a previous revaluation of that asset.

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group unless it is clear that both elements are operating leases, in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment properties

Investment properties are land and buildings which are owned or held under a leasehold interest to earn rental income and/or for capital appreciation. They are stated in the consolidated statement financial position at fair value. Any gain or loss arising from a change in fair value or from the retirement or disposal of an investment property is recognized in profit or loss.

Fixed assets and depreciation

Fixed assets other than oil properties, freehold land and investment properties are stated at cost less accumulated depreciation and impairment loss, if applicable. The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the fixed assets have been put into operation, such as repairs and maintenance, is normally charged to the profit or loss in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the fixed asset, the expenditure is capitalised as an additional cost of that asset.

Depreciation is calculated on the straight-line basis to write off the cost of each asset over its estimated useful life. The principal annual rates used for this purpose are as follows:

Freehold land	Nil
Buildings	10 to 36 years
Machinery and equipment	10% – 20%
Furniture, fittings and computer	14% – 50%
Motor vehicles	10 – 30%

An item of fixed asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the consolidated statement of profit or loss in the year in which the item is derecognised.

Construction in progress

Construction in progress includes fixed assets in the course of construction for production or for its own use purposes. Construction in progress is carried at cost less any recognised impairment loss. Construction in progress is classified to the appropriate category of fixed assets when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended uses.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments and other financial assets

Financial assets in the scope of HKAS 39 are classified as financial assets at fair value through profit or loss, loans and receivables, and available-for-sale financial assets, as appropriate. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

The Group determines the classification of its financial assets after initial recognition and, where allowed and appropriate, re-evaluates this designation at the balance sheet date.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading. Financial assets are classified as held for trading if they are acquired for the purpose of sale in the near term.

Gains or losses on investments held for trading are recognised in profit or loss. The net fair value gain or loss recognised in the profit or loss does not include any dividends on these financial assets, which are recognised in accordance with the policy set out for "Revenue recognition" below.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are subsequently carried at amortised cost using the effective interest method less any allowance for impairment. Amortised cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate and transaction costs. Gains and losses are recognised in the profit or loss when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets in listed and unlisted equity securities that are designated as available for sale or are not classified as financial assets at fair value through profit or loss, loans and receivables and held-to-maturity investments. After initial recognition, available-for-sale financial assets are measured at fair value, with gains or losses recognised as a separate component of equity until the investment is derecognised or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity are included in the profit or loss. Interest and dividends earned are reported as interest income and dividend income, respectively and are recognised in the profit or loss as "Other income" in accordance with the policies set out for "Revenue recognition" below. Losses arising from the impairment of such investments are recognised in the profit or loss as "Impairment losses on available-for-sale financial assets" and are transferred from the available-for-sale investment revaluation reserve.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(i) *The Group as lessor*

Amounts due from lessees under finance leases are recorded as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised in the consolidated statement of profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

(ii) *The Group as lessee*

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see below).

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are recognised as a reduction of rental expense over the lease term on a straight-line basis.

Impairment of tangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under that standard.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that standard.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets other than financial assets at fair value through profit or loss

For unquoted equity securities and current receivables carried at costs, the impairment loss is measured as the difference between the carrying amounts of the financial assets and the estimated future cash flow, discounted at the current market rate of return for a similar financial asset where the effect of discounting is material. Impairment losses for current receivables are reversed if in a subsequent period the amount of the impairment loss decreases. Impairment losses for equity securities are not reversed.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first-in, first-out and weighted average method in different subsidiaries. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discounts and sales related taxes.

- (a) Revenue from sale of goods is recognised when the goods are delivered and title has passed.
- (b) Interest income is recognized as it accrues using the effective interest method.
- (c) Rental income is recognized on the straight-line basis over the lease terms.
- (d) Service income is recognized when services are rendered.
- (e) Dividend income from investments is recognized when the shareholders' rights to receive dividends have been established.

Borrowing costs

All borrowing costs are recognised as an expense in the year in which they are incurred.

Government grants

Government grants are recognized in the statement of financial position initially as deferred income when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognized as revenue in the profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the group for the cost of an asset are recognized in the profit or loss as revenue on a systematic basis over the useful life of the asset.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated statement of financial position. It is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Convertible debentures

The component of convertible debentures that exhibits characteristics of a liability is recognised as a liability in the statement of financial position, net of transaction costs. On issuance of convertible debentures, the fair value of the liability component is determined using a market rate for an equivalent non-convertible debentures; and this amount is carried as a long term liability on the amortised cost basis until extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognised and included in shareholders' equity, net of transaction costs. The carrying amount of the conversion option is not remeasured in subsequent years. Transaction costs are apportioned between the liability and equity components of the convertible debentures based on the allocation of proceeds to the liability and equity components when the instruments are first recognised.

If the conversion option of convertible bonds exhibits characteristics of an embedded derivative, it is separated from its liability component. On initial recognition, the derivative component of the convertible bonds is measured at fair value using the Binomial Option Pricing model and presented as part of derivative financial instruments. Any excess of proceeds over the amount initially recognised as the derivative component is recognised as the liability component. Transaction costs are apportioned between the liability and derivative components of the convertible bonds based on the allocation of proceeds to the liability and derivative components when the instruments are initially recognised. The portion of the transaction costs relating to the liability component is recognised initially as part of the liability. The portion relating to the derivative component is recognised immediately in the profit or loss.

Trade and other receivables

Trade and other receivables are recognized initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade and other receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognized in the profit or loss.

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Trade payable

Trade payables are recognized initially at fair value and subsequently measured at amortised cost using the effective interest method.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Foreign currency transactions

(i) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The Company's functional currency is Hong Kong Dollars. The Group's presentation currency of the financial statements is the United States Dollars, which is the functional currency of the Group's main operations, crude oil business.

(ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing of the dates of transactions. Monetary assets and liabilities denominated in other currencies are translated at the year-end exchange rates. All exchange differences are dealt with in the profit or loss.

(iii) *Group companies*

The results and financial position of all the Group's entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each statement of financial position presented are translated at the closing rate at the reporting date;
- (b) Income and expense items are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expense items are translated at the dates of the transactions); and
- (c) All resulting exchange differences are recognized in other comprehensive income and accumulated in equity under the heading of translation reserve.

Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, and it is probable that the Group will be required to settle that obligation. Provisions are measured at the directors' best estimate of the expenditure required to settle the obligation at the reporting date, and are discounted to present value where the effect is material.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Segmental reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the key management that makes strategic decisions.

Employee benefits

Salaries, bonus and leave entitlements

Salaries, annual bonuses, paid annual leave, leave passage and the cost to the Group of non-monetary benefits are accrued in the year in which the associated services are rendered by employees of the Group. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

Retirement benefits

The Group has arranged in Hong Kong employees to join the Mandatory Provident Fund Scheme (the "MPF Scheme") established under the Mandatory Provident Fund Ordinance. Under the MPF Scheme, each of the Group (the "employer") and its employees makes monthly contributions to the Scheme at 5% of the employees' earnings as defined under the Mandatory Provident Fund Ordinance. The contributions from employer and each of the employees respectively are subject to a cap of HK\$1,000 per month and thereafter contributions are voluntary. The assets of the MPF Scheme are held separately from those of the Group and managed by an independent trustee.

The subsidiary in United Kingdom operates a defined contribution scheme for its employees. The assets of the scheme are held separately from those of the subsidiary. Contributions to defined contribution retirement schemes are charged to the profit or loss as incurred.

Cash equivalents

Cash equivalents comprise cash at banks and on hand, net of outstanding bank overdrafts, which are repayable on demand, and short term highly liquid investments which are readily convertible into known amounts of cash and which were within three months of maturity when acquired.

5. SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(a) Impairment of receivables

The ageing analysis of accounts and collectability of the accounts receivable are reviewed by the management during the year. A considerable amount of judgement is required in assessing the ultimate realization of these receivables, including the current creditworthiness and the past collection history of each customer. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

14. FIXED ASSETS (Continued)

Since 2009, the exploratory oil properties of the Group have been leased to an independent third party for further exploration. The management recognised an impairment loss of these oil properties to an amount of US\$3,600,000 in 2010.

Investment properties of the Group are held on long lease situated outside Hong Kong.

The Freehold land and buildings were revalued on 31 December 2013 on the basis of their open market value by Cookie & Arkwright, an independent firm of chartered surveyors. The valuation was approximate to the carrying value at the end of the reporting date.

Had the Group's Freehold land and buildings been measured on a historical cost basis, their carrying amount would have been US\$4,860,000 (2012: US\$4,921,000).

The investment properties were revalued on 31 December 2012 on the basis of their open market value by Youlanda, an independent firm of chartered surveyors.

The net book value of plant and machinery held under finance leases of the Group was US\$225,000 (2012: US\$523,000).

Receivable from sales of graphite ore	25,143	–
Receivable from others	16,392	18,039
	44,387	18,781

The receivable from SKKMIGAS (formerly BP MIGAS) represents a trade receivable balance arising in the normal course of business and represents the amount of crude oil sale receivable and costs not yet recovered out of Pertamina's share of incremental crude oil production. The balance is unsecured, non-interest bearing and with 30 days credit term.

The long term portion of trade receivable and the current portion receivable from sales of graphite ore (the "Purchaser") totalling approximately USD262,973,000 represent a trade receivable balance arising in the normal course of business. The balance is secured over the unsold graphite ore acquired by the Purchaser, non-interest bearing and repayable within 10 years. The Purchaser have to repay at least USD26,425,500 each year until fully settled. Should the Purchaser sold the goods of cost more than this minimum payment in a year, they have to settle the excess balance with credit term of 30 days.

Expected Volatility	–	75.826%

NOTES TO FINANCIAL STATEMENTS

For the year ended 31 December 2013

27. CONVERTIBLE DEBENTURES (Continued)

Convertible debentures issued to RTM Financial Corp. (Continued)

The risk-free rate was determined with reference to the yield rate of Hong Kong Exchange Fund Notes. The expected life was estimated based on the terms of the Convertible Debentures. The expected volatility was determined based on the historical price volatilities of the Company's share price under the same periods as the expected lives. Any changes in the major inputs into the model will result in changes in the fair value of the embedded financial derivatives.

The fair values of the convertible debentures at issue date are approximate to those at the conversion date or at the end of the reporting period. No profit or loss for the change in fair values on conversion is recognized.

Two amendments and one supplementary documents were made on 6 January 2012 and 26 January 2012 respectively that Agreement with a RTM Financial Corp.: (1) the total number of conversion shares (for the whole US\$250,000,000 debentures) will not exceed 7,500,000,000 Shares; and (2) be changed from flexible payment schedule to specific payment day, i.e. the RTM Financial Corp will complete the payment for US\$250,000,000 debentures (by one or more installments) on or before December 31, 2014. The conversion price shall be 90% of the average closing price of the Shares of any five (5) consecutive trading days (as selected by the debenture holder) within sixty (60) trading days immediately prior to the conversion date, but in any case the conversion price shall not be lower than HK\$0.10 per Share.

One amendment was made on 24 October 2012 to increase the interest rate from 3% to 5% per annum.

37. FINANCIAL RISK MANAGEMENT

38A Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest risk and price risk), credit risk, liquidity risk and cash flow interest rate risk. The Group intends to use a combination of financial instruments to manage its financial risks.

The risk management of the Company, and its subsidiaries, are centralized at head office level in accordance with the Group's risk management policy. The Group identifies, evaluates and monitors financial risks closely with the Group's operating units. The Group has written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and cash management.

(a) *Foreign exchange risk*

The Group's entities have only a small amount of sales that are denominated in currencies other than the functional currency of that group entities. Therefore, the Group is not exposed much to foreign exchange currency rise.

The Group's reporting currency is US dollar. Foreign currency exposures of the Group primarily arise from the Group's operations in China and United Kingdom, whose functional currency are Renminbi and Pound Sterling. Foreign exchange swaps or forward contract and foreign exchange option may be employed to minimise the net exposure to foreign currency fluctuations.

(b) *Interest rate risk*

The interest rate risk arises from debt borrowing. Borrowing issued at variable rates exposes the Group to cash flow interest rate risk while borrowing issued at fixed rates expose the Group to fair value interest rate risk.

(c) *Price risk*

Kalrez Petroleum (Seram) Limited, a wholly owned subsidiary of the Company, sells crude oil it produces in Indonesia to SKKMIGAS (formerly BP MIGAS), the national petroleum company of Indonesia, at market prices, which exposes the Group at price risk, if the crude oil price falls significantly. The Group will actively monitor and manage the crude oil price risk.

(d) *Other price risk*

The Group is exposed to equity price risk through its investment in listed equity securities in Hong Kong and OTC Bulletin Board in the United States. The management manage this exposure by maintaining a portfolio of investments with different risk and return profiles.

At 31 December 2013, it is estimated that an increase/decrease of 10%, 30% and 50% in market value of the trading securities, with all other variable held constant, profit for the year and the equity would increase/decrease by US\$3,054,000, US\$9,161,000 and US\$15,269,000 respectively.

37. FINANCIAL RISK MANAGEMENT (Continued)

38A Financial risk factors (Continued)

(e) *Credit risk*

The credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company and its operating subsidiaries have established the credit policy to limit the credit risk exposure. Except for the sales of graphite ore, all receivables are due for settlement no more than 60 days after issue and collectability is reviewed on an ongoing basis. Specific credit terms has been offered to debtor of graphite ore.

(f) *Liquidity risk*

Liquidity risk is prudently managed by maintaining sufficient amount of available committed credit facilities. In addition, the Group actively manages and extends its debt maturity profile to ensure that the Group's maturing debt each year will not exceed the anticipated cash flow and the Group's ability to refinance the debt in that year.

The contractual maturity of the obligation under finance lease is shown on notes 26 of the financial statements. The following non-derivative financial liabilities of the Group are repayable within one year or on demand.

	Group	
	2013	2012
	US\$'000	US\$'000
Trade and other payables	27,572	28,066
Due to non-controlling interest	862	1,205
Bank loan on discounted debtors	–	304
Dividend payable	–	2,450
Taxation	15,710	1,738
	44,144	33,763

37B Fair value of financial instruments

The carrying amounts of the Group's financial instruments are as follows:

- (i) The fair value of financial assets with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices.
- (ii) The fair value of other financial assets and financial liabilities (including derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices or rates from observable current market transactions as input.
- (iii) The carrying value of bank and cash balances, trade and other receivables, amounts due from subsidiaries and trade and other payables are assumed to approximate their fair values due to the short term maturities of these assets and liabilities.

37. FINANCIAL RISK MANAGEMENT (Continued)

37C Fair value measurement recognized in the consolidated financial statements

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into level 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair values measurement are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair values measurement are those derived from inputs other than quoted prices include within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair values measurement are those derived from valuation techniques that include inputs for the assets or liability that are not based on observable market data (unobservable inputs).

	Level 1 US\$'000	Level 2 US\$'000	Level 3 US\$'000	2013 Total US\$'000
Financial assets at fair value held for trading	30,543	–	–	30,543

38. CAPITAL RISK MANAGEMENT

The purpose of the Group's capital management is to ensure that entities in the Group will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance. The Group's overall strategy remains unchanged from the previous year.

The capital structure of the Group consists of debt, which includes the bank loan on discounted debtors, convertible debentures, cash and cash equivalents, and equity attributable to equity holders of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure periodically. As part of this review, the directors consider the cost of capital and the risks associated with the capital. Based on recommendations of the directors, the Group will balance its overall capital structure through payment of dividends, issuance of new capital shares, convertible debentures or new debts.

39. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved by the board of directors on 31 March 2014.
